We are proud to bring to market a selection of two-bedroom apartments, set across three-levels within the western tower. To be built by the local and reputable MARS Construction, and designed by renowned local architect, Kelly O'Connell - this is an exciting project being spearheaded by local people.

Outdoor spaces, both private and common, are a major feature in the design of the building. Each tower has private access to a rooftop terrace, and there is a large common garden space on the ground floor.
