3 2 2

We always thought there were only 2 terrace options, until we laid eyes on this very pleasant surprise!

Boasting the open style kitchen and living that's proven to be very popular in the terraces, the living here is significantly larger than it is in the other open style terraces and considering this is where you spend most of your time, it's a pretty impressive difference.

The other big differences include a laundry, study and powder room, all on the ground floor, with outdoor front and back decks on both levels too.

Beyond the very different floorplan, the owners have further finessed and improved their terrace, as it's been their home, not just an investment or holiday weekender.
